EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 41 line 5, before the word "arranging", the phrase --after the first layer of material selecting step,-- was inserted.

Claim 89 was canceled.

2. The following is an examiner's statement of reasons for allowance:

As correctly noted by Counsel on 03-03-04, the prior art requires arranging segments onto panels, then the panels are inter-connected together to form a 1st layer material having a circumferential edge; while claim 41 now requires performing the recited 1st layer of material selecting step and then "*arranging the segments on the first layer of material ...*" (emphasis added), claim 41 is allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
